The structures below are made up of centimeter cubes.

1. [Diagram of cube structure]
   - Area of base = __________ cm²
   - Volume of first layer = __________ cm³
   - Volume of entire cube structure = __________ cm³

2. [Diagram of cube structure]
   - Area of base = __________ cm²
   - Volume of first layer = __________ cm³
   - Volume of entire cube structure = __________ cm³

3. [Diagram of cube structure]
   - Area of base = __________ cm²
   - Volume of first layer = __________ cm³
   - Volume of entire cube structure = __________ cm³

4. [Diagram of cube structure]
   - Area of base = __________ cm²
   - Volume of first layer = __________ cm³
   - Volume of entire cube structure = __________ cm³

Practice

5. \( \frac{3}{5} \times \frac{1}{8} = \) __________

6. \( 3,840 / 4 = \) __________

7. \( 960 \times 4 = \) __________

8. \( \frac{4}{5} \times \frac{5}{6} = \) __________
